

As a free citizen of this State and Republic, I require the continued allotment of F.M. frequency to "KLOVE" radio due to its potential for training and enhancement of my families values. I feel strongly that it would be detrimental to the health and well being of my community if this station was replaced with an "LPFM" signal that would not serve this need in my family or neighborhood. Our family and community rely on the shared values of law and order, and respect for the private and public well being of all of our citizens, this station promotes and supports the teaching of community respect for order and the Morality that defines our free society.

I thank you for this chance to share in the duties of my citizenship.
Scott & Edith Headley, Morgan Hill California. Listening on FM 89.7, 103.1, and 91.9,
San Jose/ San Francisco Bay Area
